

PHS RED PRIDE BAND MULCH SALE

PLAYER INVOLVEMENT

FEBRUARY 15—MARCH 31

Players' Presale

Each player should sell 25 bags minimum

Turn in order forms daily to **Band Box** or
Bev Flanigan

Don't wait until the last weekend to start!

APRIL 1—15

Players' Neighborhood Canvass

APRIL 30

Mulch Pickup Day

9 a.m.

REMEMBER: Most people will need more than one bag of mulch!

13 bags of mulch makes ONE CUBIC YARD

ONE CUBIC YARD = 100 SQUARE FEET—3 INCHES DEEP

Most households are going to need AT LEAST one cubic yard!

MULCH CALCULATOR

To figure yardage:

1. Multiply length x width x depth
(remember to divide by 12 to convert inches to feet!)
2. Divide this total by 27
3. Round to the next whole number

EXAMPLE

10 x 10 x .25 = 25 divided by 27 = 0.93

You would need 1 yard.

Customers will buy mulch for ONE of these two reasons:

1. To better their soil—HARDWOOD and FORREST FINES mulch is GREAT for plants! This mulch is made of only BARK so when it breaks down into the soil it becomes much better.
2. To make their landscaping look better for longer—BLACK DYED and BROWN DYED mulch is BEST KNOWN for keeping its color longer.
